

# Peelz™

## flavor burst for every taste

Flavor Peelz™ is a patented, dry flavoring system that utilizes nature's ingenuity to provide you with rich and complex flavors for your products.

Peelz™ uses dehydrated orange peels to absorb our liquid flavors and then release them during the brewing, baking or cooking process. Best of all, Peelz™ can be customized for specific flavor impact and aroma to meet any flavor profile.

### Features:

- **Proprietary, patent pending technology**
- **Natural, familiar carrier of dried citrus peel particles**
- **Free flowing with no silicon dioxide**
- **Manufactured in-house**
- **Custom flavor profiles**
- **Flexible pack sizes and lead times**

### Peelz™ Powder

- **40 mesh size**
- **Reduced dusting**
- **Natural, Non-GMO, Organic Compatible and Organic Certified**
- **Suitable for bakery, nutrition bars, frozen desserts, hot cereals, seasoning and confection applications**

### Standard Peelz™
